

Texas Instruments Incorporated

July 16, 2012

To whom it may concern:

Thank you for your interest in Texas Instruments' applications processor family. TI recognizes that its products are sold to a wide variety of customers and used in a wide range of applications with expected production lifetimes in excess of 10 years. Please be assured that TI will not obsolete a product merely for TI's convenience.

TI commits to manufacture the below-mentioned parts for a minimum of 10 years following TI's general release date:

TI Device/Part number	General release date / RTM
DM8168	April, 2012
DM8148	September, 2012 (estimated)
DM3730 / DM3725	October, 2010
OMAP3530 / OMAP3525	May, 2009
OMAP4430	August, 2011
OMAP4460	January, 2012
OMAP4470	September, 2012 (estimated)

In the rare instance TI decides to end-of-life any of these products after this 10 year period, your company will be given at least 12 months' notice, and be allowed to place orders for 12 months after the end-of-life announcement, with delivery up to an additional 6 months after the 12 month notice period expires. TI trusts that this 18 month period will smooth any transition required due to any end-of-life.

TI's goal is to ensure continuity of supply for all TI products, and in keeping with that goal is making this commitment with respect to these TI products. Please feel free to contact a TI sales representative if you have any questions or concerns regarding this or any other TI product.
